SUMMARY

Enthusiastic and dedicated frontend developer with over 4 years of experience in designing and developing responsive web applications. Proficient in HTML, CSS, React.js, PostgreSQL, and Strapi. Seeking to leverage my expertise to contribute to innovative projects and enhance user experiences as a frontend developer.

WORK EXPERIENCE

Frontend developer , Techroom Services

Jan 2024 - Present

- Developed and maintained user-friendly web interfaces using HTML, CSS, and React.js.
- Collaborated with backend teams to integrate PostgreSQL and Strapi for content management.
- Ensured responsiveness and cross-browser compatibility across devices.
- Contributed to the improvement of user experience by optimizing performance and enhancing UI components.

Developer , Dcarbon Service

Mar 2021 - Dec 2023

- Developed a website using React.js, PostgreSQL, and Strapi.
- Implemented responsive design and UI/UX features for improved user interaction.
- Worked with version control systems like Git to manage project codebases efficiently.

EDUCATION

B.Sc. Computer Science

Oct 2018 - Oct 2023

Graduated with a strong foundation in software development, data structures, algorithms, and database management systems.
